## Recreation Fund

People of the community don't always agree with Escanaba City Manager George Harvey, but they certainly can't disagree with his pursuit of his occupation. Harvey not only works on items which have been brought to the attention of the City Council, he reaches beyond that scope to "look ahead" to the future in keeping one jump ahead of the majority of the people.

Some of his "trial balloons" are rapidly shot down. There hasn't been much discussion in Escanaba of late about a city income tax, for ex-

But others have prompted the city or area into action before something is lost. Like last week

Harvey reported that unless something is done in the immediate future Delta County stands to lose its share of the \$100 million state recreation bond issue that was approved by voters nearly two years ago. "The importance of time is obvious," Harvey reported to the council in his Manager's Newsletter. "The City of Escanaba has a responsibility to its citizens in regard to its share of the available funds. An acceptable application must be submitted before April 1, 1971. The danger of losing the \$3.83 per capita allocation must be recognized.'

Harvey's words were, in effect, a challenge to the Delta County Board of Commissioners, and perhaps to the Community Ice Arena Corp., to get moving or the City of Escanaba will move on its own to get its due share of the state funds. Since last spring when the community responded to the Ice Arena telecast little information about the status of the project has been released to the public. Planning work has been underway, of course, but Harvey's point is that unless the effort moves along at a faster pace an opportunity to obtain substantial financing may be lost beyond recovery.

"Some time was spent in considering pooling Delta County's share of the recreation bond fund (\$131,361) to help finance a combination convention center, indoor ice arena and indoor swimming pool," he commented. "To go in this direction it would be necessary for the Delta County Board of Commissioners to appoint a County Parks and Recreation Commission. This appointed (or elected) group would then be charged with the responsibility of formulating a comprehensive recreation plan and establishing a priority list of needs.

"The multi-purpose complex would have to be designated as the top priority or justification would have to be given for failure to submit projects with a higher priority," he added. "The cities of Gladstone and Escanaba and all the townships of the county would have to agree to relinquishing their share of the Recreation Bond Fund and accept the project as the one which would put the grants to the best use in serving the people of the county."

A community ice arena is a desirable project but perhaps it does not fit the bill for the Recreation Bond money available. Perhaps there are alternative means of finance under consideration. Perhaps there are greater needs in the area for recreation than a multi-purpose arena.

Harvey's point that if an application for money to finance such a building is going to be made to the Department of Natural Resources, the agency administering the fund, by the April 1. 1971, deadline that it's time to get the ball rolling. And even if a multi-purpose recreation building isn't at the end of the rainbow, it's time to get the ball rolling.

Less than six months remain for applications to be filed and development of plans for larger or smaller recreational facilities takes

People of Delta County and the Upper Peninsula complained loudly when the Legislature divided the Recreation Bond Fund according to a different formula than was used during the campaign. The formula finally adopted favored the metropolitan areas. In the face of the criticism leveled at the Legislature and Gov. William Milliken in the division of the recreation fund it would be a crime to let the local money slip through the area without at least making an attempt to develop an acceptable project or projects. Money is often the major stumbling block on community projects. Through the recreation bond issue money - over \$131,000 - is available. It's time, like Harvey says, the community starts doing something about using it.

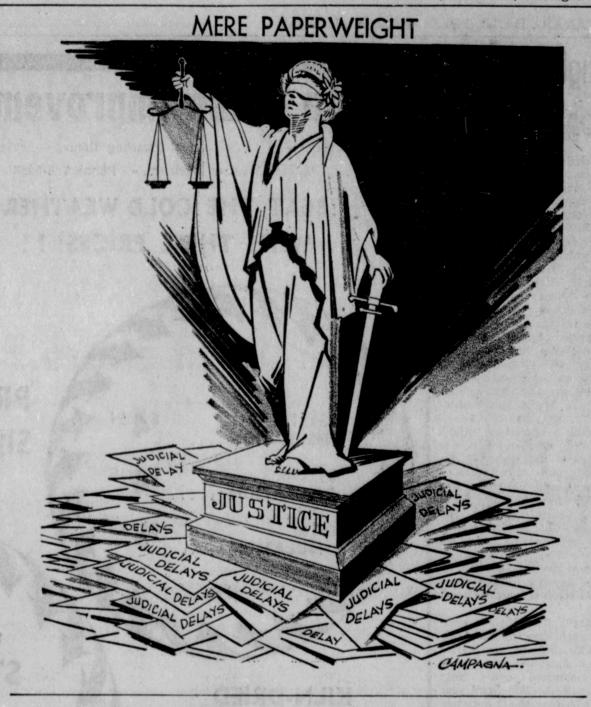

## Peninsula Potpourri

A little cub bear wandered into Wakefield and climbed a tree in a residential area. Persons who saw the animal there left him undisturbed on his comfortable perch, but after some pictures had been taken he climbed down. After wandering onto the back porch of a home - probably in search of food — he walked through a tennis court and disappeared into a nearby swamp.

Edward (Blaz) Smith's long service as a member of the Menominee City Council ended with acceptance of his resignation by the council at a regular meeting. The 64-year-old alderman was elected to the council in 1938 and has served continuously since then with the exception of a three-year break for military service during World War II. He served under seven mayors.

The Dickinson County Board of Commissioners will assist in a renovation and improvement project at county-owned Pine Mountain ski slide. The county's share of the cost is \$6.000. A special fund drive to obtain a matching amount from the public is being promoted by the Iron Sports Association and Dickinson County Chamber of Commerce.

If Ironwood police have an unhappy lot, it's not due to any lack of wit, some of it (say detractors of the pun) of a low order. On a recent call for assistance to remove a vagrant bat from a home, the action was capsulized thus: The animal was eliminated "in the batroom."

# Why People Can't Laugh Anymore?

From the vantage point of Europe, during a short period in which one is dependent on local newspapers, you get a picture of the United States as the land of chronic bellyach-

demonstrators for women's lib, or the hippies in search of rock and pot, or the student radicals who think that dynamite has pragmatic sanction because it "works," or the 39 Senators withdrawal from Vietnam, or the University of Virginia una 20 per cent black enrollment without considering that quotas are hardly liberal, then the European correspondents who cover America have most certainly missed it.

The idea that the classic land of opportunity has become a nation totally committed to continual griping about anything and everything cannot be true. Even so, the picture is not greatly distorted.

As one who was brought up on Mr. Dooley's sage observations on Teddy Roosevelt's antics in the White House, and on the behavior of those two wonderful cats, Mehitabel and Krazy, I miss the salutary effects of lubricating laughter.

This women's lib business, now: must its partisans take it with such all-fired serious-

True, women should get equal pay for equal work. They should not be treated as objects. But are they really suffering so?

Two of the greatest newspaper correspondents of my time happened to be women. They were Dorothy Thompson and Marguerite Higgins, and nothing stopped them from rising to the top of their profession. They had ability, and they made it count, and they did better than the men when it came to telling the truth about wars and revolutions. They didn't need "lib."

I happen to be married to a remarkable woman, and I am not saying this to get my toast buttered in the morning. She runs a dance company. She teaches modern dance in two widely separated communities in Connecticut. She writes. She also brings up a family with humor and skillfully concealed discipline. If she were interested in politics she would have as much effect on it as any man. Does she need "lib"? It's obviously absurd even to raise it as a rhetorical question. From my observation women

## Kalamazoo Bank **Cuts Interest Rate**

KALAMAZOO (AP) - The state's 12th largest bank, the Kalamazoo - based First National Bank and Trust Co., has lowered its prime interest rate from eight to 71/2 per cent. Bank officials said the move, which took effect Monday, was in line with the current economic trend.

The bank was believed the first in Michigan to lower its prime interest rate in recent months. The prime interest rate is the interest a bank charges its best customers.

they know what they want. If poration heads, I'm sure that is because they aren't, as individuals, just wild about running General Motors.

As for the students, what has If there is a smile among the ever stopped any Princeton undergraduate from campaigning for his chosen political candidates? It is part of the human condition that if you haven't an independent income, or must work to get an who supported a fixed-date education, you must do your politicking in your spare time.

the Princeton University Community vote to give students two weeks off this autumn to campaign for "peace candidates"? Why should they get preferential treatment that is denied by the forces of circumstance to plumbers, subway motormen, taxi drivers, and stock brokers?

How could the council of a university community have been so lacking in a sense of proportion, closely allied to them laugh.

get what they want, provided a sense of humor, as to think their young charges are enthere aren't more women cor- titled to something that the general run of humanity must whistle for?

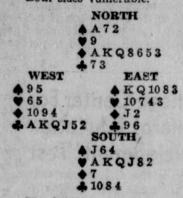

> And that World Council of Churches that recently voted to give funds to four terrorist organizations in Africa. Whatever gave them the idea that they are entitled to support murder gangs in the name of Christianity? If they had more humor they would see the witlessness of their attitude.

a feeling that I was returning to a society that had lost its perspective on itself.

And what do I find on my desk? It's a clipping from the Stars and Stripes in Tokyo in which various comic strip artists complain that "America has forgotten how to laugh at herself."

One said he sees hippies wearing outrageously funny costumes-but he never sees

## **Ann Landers**

## **Amateur Strippers** Find Booze Too Hot

answer a question that has been bugging me for a long time. Why is it that when people (especially women) get plastered they want to take off their clothes? I've never seen a drunk put on anything-they always seem to be unpeeling. Usually the women start by kicking off their shoes, then the belt comes off, next the earrings, headbands, stockings -dresses. With men, it's suitcoats, vest, then neckties-etc. Can you explain this extraordinary behavior in normally decorous people?-Deviled Egg Dear Deviled Egg: Alcohol

releases the inhibitions and distorts the judgment. Too much booze fools folks into believing that whatever they do is O. K. Alcohol also dilates the surface blood vessels and warms people up. The natural inclination when people get overheated is to make themselves comfortable. Some of these people become quite uncomfortable the following day, however - when they have trouble remembering the previous night's activities.

Dear Ann Landers: May I answer Blue Monday? It could have been written by my mother-in-law - to me or to either of my two sisters-in-

Before her sons married she planned every spare minute for them. Their vacations were an endless series of visits to dozens of elderly relatives. They were not allowed to have any friends. She said "outsiders" disrupted the family unit.

When my husband was in Vietnam she came to my home and demanded that I share his letters. When I refused, she called me names you wouldn't believe. My brothers-in-law are now in the service and they don't write very often so she telephones their commanding officers regularly. My mother-in-law has de-

cided that "those three miserable girls" have turned her boys against her. But guess who buys the birthday gift, the Christmas gift, the Easter ham and the Mother's Day plants? -Those Three Miserable Girls

Dear Girls: You girls just might turn out to be the whole world's best mothers-in-law. There's no teacher like experience-especially a bad experi-

Dear Ann Landers: My great uncle is 83 years old but could pass for 65. He became a widower in '68 and ever since his wife died he has been the town playboy. Last week he took out two ladies-the differences in their ages was 40 years!

Six months ago Unk began to make subtle passes at me when nobody was looking. I laughed it off, but it's not funny anymore. Last night he cornered me in the garage when I went to get charcoal for the barbecue. He grabbed me and kissed me full on the

# Automobile Milage Fees Appear Way Out Of Line

NEW YORK (AP) -A report by the Federal Highway Administration states that the average motorist spends 11.9 cents a mile to own and operate an automobile.

A study by the National Industrial Conference Board of 128 manufacturers who use per-mile formulas to reimburse their employes for use of their personal cars shows that all but 10 of them pay less than that figure. Parking Fees Paid

True, the manufacturers almost always pay parking and toll charges, which the government estimates to amount to 1.8 cents a mile, but that still doesn't make the typical 10-cent reimbursement eminently fair. Here's why. The government

estimate of car costs is based on a 10-year life span for the vehicle, with the greatest depreciation in value taking place during the first few years and almost none at the end of the 10-year Old Cars Ruled Out

But how many companies permit their representatives to drive 10-year-old cars? More likely they must trade them in every three years or so, thus suffering far greater depreciation costs than the government's 3.2 cents a mile estimate. More like 5 cents a mile.

Moreover, the government figures are based on a car costing about \$3,200. Thousands of company representatives own more expensive models that also may be more expensive to operate.

Most Pay 10 Cents

At any rate, the survey shows that 88 companies now pay 10 cents, but that seven pay as little as 8 cents a mile. One outfit pays 15 cents and another company reports it is considering a

were either temporarily suspended or placed on probation

The NICB figures on mileage rates are part of a larger survey of company practices regarding flying and driving that tends to suggest that some manufacturers may have become a bit more tightfisted of late.

"The airlines industry may have cause to speculate about the future of its first-class service," the report states, because 145 of 160 participants in this aspect of the survey have established coach, economy or tourist as the preferred accommoda-

First-class air travel once was automatically chosen by top management in some companies, but several firms reporting to the NICB now say they do not permit their officers to routinely choose the most expensive serv-

## Orthodontist Locates Here

Dr. Nelson L. Smith, orthodontist, is establishing practice in Escanaba with offices in Doctors Park, it was announc-

ed today. He was awarded his Masters degree as a Specialist in Orthodontics at the University of Michigan Dental School in June this year. Dr. Smith received his Dental degree at the U. of M. in 1967, and was for a year on the staff of the Dental School there before completing his work for his degree in orthodontia.

Born in Toledo and raised in the South Chicago area, Dr. Smith had lived in Ann Arbor for the past 10 years.

His wife, the former Dawn Vogl of Owosso, was a dental assistant supervisor at the University of Michigan Dental Planes In State School and will be employed in Dr. Smith's office here.

Dr. and Mrs. Smith are residing at Ford River.

## Of Commission Set For Thursday

A special meeting of the City Commission will be held at the City Hall at 7:30 p.m. Thursday. Items on the agenda include of the United Methodist Church youths roof on the City Hall, payment to Champion, Inc., for work at the water plant, and adoption of the building code ordinance and the national electrical code. The commission also will meet with the planning commission.

## Briefly Told

Reservations for the Child's Welfare Club Bridge Marathon will close on Sept. 23. It is not necessary to be a member of the organization to play in the marathon. Anyone wishing to play should call Mrs. Nettie Lundmark, at 425-7311 before Sept. 23.

Trinity Episcopal Church will begin their weekly church school classes for grades one through six on Thursday. Classes will begin immediately after school and all children with no other religious affiliation are welcome to attend these sessions.

# Here's Howes

by Don Howes

Rumors have been going around that I am planning on stepping down from the position of being your Sports Editor . I would like to inform you that the rumors are true and this will be my last clumn, as I will be leaving the Press this weekend. It's a hard thing to do for a person who likes sports Williams as much as I do, but a person has to watch out for his own well being . . . I would like to thank all that have helped me, especially with their cooperation on helping me to bring as much local coverage as possible to the readers of the Daily the Expos with a wild-pitch

With the high school football campaign only two weeks old there is already the possibility of the Escanaba area having two conference champions and a U. P. champion. All three major schools that are undefeated so far are all within our area. All three also have been very impressive with early season thiumphs and this weekend two will be playing key conference games that will have a bearing on their respective conferences. Escanaba, Noly Name and Gladstone are the three big powers still undefeated in the U. P. Gladstone plays a must game against Ishpeming this week and must win in order to repeat in the GLC, by the way Ishpeming was the only team to beat the Braves last year. Holy Name will be clashing with Menominee, champions of the GNC last year . . . The Crusaders will have to win this one against the on again off again Maroons in order to stay in the race for the GNC crown . . . Escanaba will be shooting for their third straight also, against the Blue Devils from the Soo. The Eskymos could win big and preserve their No. 1 ranking, but they must be aware that the Soo also has been playing football for quite a few years and would like nothing more than upsetting the Eskymos.

A few points of interest after last Saturday's clash between ry Lersch got Pittsburgh off to a the Escanaba Eskymos and the Menominee Maroons is the 3-0 lead in the first and Hebner fact that Escanaba did not have a penalty for the entire game . . . in over half of the cases this is where a team wins or looses mers in the fifth. ball games. Coach Jerry Cvengros reported after the game, "that he doesn't know what it is between the two powers, but Washington Senator pitchers it seems like every time they play Menominee the Maroons are always fired up for the Eskymos" . . . Cvengros also reported, dez came charging in, stopped "that the game against the Maroons was by far a much better and retreated only to have the team effort than the game against Marquette." Another point ball fall behind him for a windof interest is that the Maroons only had the ball for nine of- blown double. fensive plays the entire second half which was only good for 15 yards . . . a fine job by the Eskymos.

> A devastating first half ground attack and a solid gamelong defense sparked the Northern Michigan Wildcats to a 21-0 opening game victory over Northern Iowa last Saturday. Northern rolled up a total of 338 yards to 178 for Iowa. The Wildcats will be making their first home appearance of the season this Saturday against Hofstra University.

Gearld Duchaine, a 1969 graduate of Escanaba High School whose parents are Mr. and Mrs. Tom Duchaine reside at 323 S 14th St., is a member of the MAA's Subic Naval Station basketball team in the Philippines. Recently the team won the first annual intramural basketball tournament involvivng teams chaine has won three trophys at his forward position and helpfrom within the naval station. So far this past year, young Duchaine has won three trophies at his forward position and helped the team to a winning season.

# Orioles Near

Rigney toasted a loser.

Weaver's Baltimore Orioles whipped Washington 6-2 Tues- attack with a double and his day night behind left-hander 34th homer. Dave McNally and moved within a 1-2 knockout punch of their mer and a tie-breaking single second successive American by Jim Holt carried the Twins League East championship.

Rigney's Minnesota Twins, zeroing in on the West Division ti- liams, celebrating his 29th birthtle and a rematch with the Or- day, picked up his 10th victory ioles in the pennant playoffs, against one loss. downed Califronia 7-5 in the opener of a day-night doubleheader but blew the second game 5-3, wasting a standout pitching performance by 145-pound southpaw Tom Hall.

"The little guy pitched his heart out, but I couldn't save it for him," Rigney said after a five-run California rally in the ninth left the Twins with half a loaf and a magic number of seven to nail the division crown.

Elsewhere, the New York Yankees swept a twin bill from Boston 8-6 and 3-2; Cleveland edged Detroit 4-3 and Oakland divided a doubleheader with Milwaukee, winning 6-5 after a May. 1-0 loss, Kansas City and the Chicago White Sox were rained

on five hits for his 23rd victory of the season, matching teammate Mike Cuellar for the major league lead, as the Orioles reduced their magic number to two. Weaver promised to breakout the champagne tonight should his club beat the Senators again and the second-place Yankees lose to Boston.

"Outstanding," was the manager's estimate of McNally's ef- dulled by a two-year layoff and Green in 1:57 of the 10th with a

## Willie Richardson On The Move Again

ning a pretty crazy pattern be- catcher with 67 receptions. fore the 1970 season begins.

By The Associated Press last season. That was good For one of the National Foot- enough to get him traded to last season. That was good ball League's top wide receiv- Pittsburgh for Roy Jefferson, ers, Willie Richardson is run- last year's third best pass

Then there was a brief walk The 30 - year - old veteran out of the Steelers' camp in a caught 43 passes and averaged money squabble he signed his 15 yards a catch with Baltimore contract, and he caught only four passes for 62 yards in three

pre-season games. So, Willie Richardson was on the move again Tuesday, this time to the Miami Dolphins. But the price for him now is only a high draft pick in 1971.

That price might be well worth it for the Dolphins, who already gave up their top 1970 pick - which turned out to be quarterback Mike Phipps to Cleveland for ace receiver Paul Warfield, to go with their blooming young quarterback Bob Griese.

Pittsburgh coach Chuck Noll explained the latest Richardson move by saying "I feel Richardson is most effective when he can play regularly and it would have been hard for him to play on this basis in Pittsburgh."

Richardson apparently had been beaten out of the starting job by rookie Ron Shanklin, a second round pick from North Texas State; second year man J.R. Wilburn, and Hubie Bryant, another rookie.

Without him, the Steelers still managed their best pre-season showing in many years with a 4-1 record.

Richardson thus is united with Miami coach Don Shula, who had him for seven years at Baltimore, where Richardson earned all-pro honors.

Richardson wasn't the only one moving Tuesday as NFL teams made their final cut to 40 players before the season openers this weekend. However, many of the others didn't know where they would go next. Tike George Mira, the veters arterback.

Mira, who asked to be traded several years ago by San Francisco when he couldn't beat John Brodie out of a job, was sent to Philadelphia last September, and now has failed to oust incumbent Norm Snead

Mira was cut by the Eagles, who are attempting to trade him. The Eagles decided to keep rookie Rick Arrington, a free agent from Tulsa who looked good against Houston last week

LAST YEAR'S GREMLIN WAS

AMERICA'S ONLY UNIQUELY

WHEN AMERICAN MOTORS first brought the Gremlin to town it was a smashing success.

Gremlin has a unique look that stopped the i ...ts cold. (we won't change it for quite a while either. We don't have to!) Gremlin is e sier to park and handle because it has a turning circle three feet shorter than VW, yet it's only three inches longer overall. And Grem-

lin's six cylinder engine is twice as powerful as VW's four, yet still gets about 25 m.p.g.!

This year Pinto and Vega are jumping on the economy car bandwagon, but there's no ques-

tion as to who's still at the head of the class. While Pinto and Vega offer only four-cylinder

engines ,the 1971 Gremlin has a proven, reliable 232 cubic inch six as standard. And Grem-

lin's optional 258 cubic inch engine is the most powerful six made in the U. S. and speaking

of options, Gremlin in optional list is still one of the most complete in the economy car field.

SEE AND DRIVE THE 1971 GREMLIN TODAY

AT THE LEADER OF THE CARS

BERO MOTORS
